

# Abbey Brown

## Software Developer at Nashville Software School

### ABOUT ME

In 2015, I graduated Magna Cum Laude from MTSU with a major in Communications, and a minor in Marketing. I started working as an administrative assistant for an audio company, and after a year I was promoted to a management position. Over time, the job became repetitive, and I hit a growth ceiling within the company. It made me realize the importance of having the opportunity to continuously learn and grow within a career.

The continuous challenges and learning opportunities is what initially attracted me to the technology industry. I signed up for a three week program covering the basics of programming, and that's where my intrigue became interest. There's always something new to learn, and that's what keeps me excited about the industry.
